參觀「創科博覽」

爸爸爲了讓我了解中國的最新科技發展，所以帶我去參觀「創科博覽」。我和爸爸乘車到達會議展覽中心，興致勃勃地走入展覽會的大門，只見屏幕上有一個立體的動畫，裏面的「航太員」好像真的一樣，他時而好奇的伸出頭，望望周圍；時而向大眾揮揮手，然後「他」向觀眾扔出一枚博覽會的勳章，我完全看得目瞪口呆。

我們走向入口，入口就像一個無窮無盡的黑洞，充滿神秘感。博覽會共分為八個大區，有陸地科技區，有生物科技區，還有智能科技區等等。最令觀眾矚目的是航太科技區的從月球上採集的土壤，雖然土壤只有兩粒米的重量，但它非常珍貴，因爲現今世界上只有中國、俄羅斯、美國擁有採集月壤的技術，是中國科學家得來不易的成果呢！當中航天儀器的模型，例如火星車「祝融號」，「天宮」空間站，探月車「月兔號」等，都令人嘆爲觀止，大開眼界，期望日後會出現「共工」號登陸水星吧！

就在這時候，一個五顏六色的半圓引起了我的注意，我問爸爸：「爸爸這是什麼呀？」他解釋道：「這是一個中國生產的『京華號』盾構機，號稱『地下蛟龍』，就像一條鋼鐵穿山甲，用來挖隧道。以前中國要以高價來購買或租借外國的設備。現在，中國可以製造自己的設備，甚至出口到其他國家。它那些紅通通的刀具形成了一面紅色的京劇面譜，你覺得像什麼呢？」「就像關羽！」我說。「沒錯，這代表『忠勇義烈』，是不是特別？」爸爸回答。

博覽會不僅有不同的展覽品，還有很多有趣的小遊戲，例如360度互動體驗、VR和AR互動體驗、火箭組裝遊戲等。我還參加了問答比賽，贏得了一個熊貓航天員布娃娃呢！

祖國的科技真是日新月異，這個博覽會讓我認識了不少新科技，增廣見聞。古代有愚公移山故事，我國的科學家憑着堅毅不屈的精神，通過幾代的努力，才得到今天的成就。

班別：5A班

年齡：11歲

有條理、有層次地寫出展覽的全貌，文字生動，具有現場感，也有作者的觀感抒發，寫得不錯。

Taro and the Palace

●Characters

Taro, the turtle and the princess

●Settings

In the palace; in the village

A fisherman called Taro lived in Tomari Village. One day, he saved a magical turtle on the beach. To thank Taro, the turtle took him to the Dragon Palace.

The princess of the Dragon Palace welcomed Taro and took a photo with him.

The palace wall shone like diamonds. A lot of colourful pearls decorated its floor. Every day, Taro watched amazing shows including dancing, fighting and singing. He also **tasted** food from different countries. All of them were mouth-watering!

One month later, Taro started to miss his parents and friends. He said goodbye to the princess. She gave him a box and said, "Open it when you need answers."

When Taro arrived at his village, he was shocked! The buildings and the streets looked different and he could not find his parents or friends.

Taro remembered the princess's words and opened the box. Some white smoke came out of it. All of a sudden, Taro turned into an old man!

"Taro, a month at the Dragon Palace equals 100 years on land. You are 120 years old now!" said the box.

"Oh! I wasted too much time in the palace!" thought Taro sadly.

Taro and the princess are admiring the view on the balcony.
